

EXPERT CONSULTANT

KYLE STEWART

Senior Consultant

Prior to joining KJA Kyle Stewart was employed as a design & manufacturing engineer working in the Aerospace and Defense Sector. He completed a bachelor's degree in mechanical engineering at McMaster University and during his final year he was awarded a James Ham Safe Design Award from Minerva Canada for a Canadian wide design competition. At KJA Kyle currently holds the position of Senior Consultant with 7 years of experience in the elevator industry. He has consulted on hundreds of projects and has been involved in various national programs for major national real estate and property management firms.

Kyle has been involved in numerous vertical transportation projects across Ontario. He has recently played major roles in the development, engineering, tendering and construction supervision for vertical transportation systems for projects including but not limited to, Telus Tower, North York Centre, St. Joseph's Hospital and Strathroy General Hospital. He has also acted as one of the Prime Consultants for an Infrastructure Ontario project encompassing the upgrades and modernizations for roughly 100 buildings across Ontario.

Kyle has been involved with the coordination and execution of Ontario wide safety inspections for the Federal Government. He also has been involved with various national programs and currently oversees KJA's National Slate Asset Management E2M Account
