

EXPERT CONSULTANT

ROB ISABELLE, P. Eng.

Chief Operating Officer

A highly accomplished elevator industry engineering executive with global experience, Rob Isabelle, has been in the elevator industry since 1984 including international roles related to research and development, and global equipment sourcing.

He is involved with all aspects of KJA operations including:

- Overseeing national accounts, procurement, major new installation and modernization projects, and expert witnessing.
- Overseeing six KJA offices (approximately 60 employees).
- Executive oversight in the development, engineering, tendering, and supervision relating to vertical transportation systems for projects in Canada and the United States.

Located in Toronto, Ontario, Rob has completed hundreds of assignments for residential, commercial, institutional, and healthcare projects with costs approaching \$1B, including many well-respected international assignments in South Korea and China. Experience in supervising a number of owner and P3 funded projects, he has inspected several thousand elevators and escalators across Canada and internationally.
